

## SC4 Reusable Coverall Splash Contamination Suit

The SC4 is a one-piece reusable Type 3 coverall splash suit designed for use in conjunction with self-contained breathing apparatus (SCBA) worn on the interior of the suit. The garment is CE certified to EN466:1995 and is intended for use in environments that are not potentially fatal to the user.

### Product Features

- Flexible 0.75mm thick visor allowing a wide field of vision.
- Heavy duty 122cm (48") gas tight zip fitted to the right-hand side of the suit.
- Externally taped seams (Elastomeric suits only).
- Elasticated inner legs with stirrups with elasticated outer legs designed to accommodate safety boots of the customer's choice.
- Safety gloves that are compatible with the material of the suit fitted by means of the Respirex locking cuff mechanism.
- Adjustable internal waist support belt enabling users of varying sizes to comfortably wear the suit.
- Sufficient exhalation valves to ensure that the pressure change within the suit does not exceed 1 mbar in 1 minute.
- Additional protection can be offered to the knees and elbows.
- The suit is produced in a standard size sufficient to accommodate a person of up to 1.95m in height.
- Optional detachable boots.
